

No-Sew Coasters and Placemats

Scrap fabric, stained linens or old blankets make great coasters and placemats for your home! These instructions are for no-sew one-sided coasters and placemats. If you'd like to have two sided, simply cut twice the amount of coasters and placemats, then stitch two pieces of material back to back, then use pinking shears to edge your new items!

You will need material, a measuring tape, a pair of scissors and a pair of pinking shears.

Step 1. Cut your fabric. For placemats, you will want to cut rectangles approximately 19" by 14". For coasters, cut squares approximately 5" by 5".

Step 2. Using a pair of pinking shears, cut around the edge of each side of the fabric to give the placemat/coaster a zig zag edge that will help to prevent fraying!

Step 3. Show off to your next houseguest, and handwash only!
